

I respectfully request that the Wisconsin No-Call law be left as is. Since the no call list was implemented, I have noticed a substantial difference in the number of phone calls I receive at home during time that is important to me and my family. I no longer have to shut off my telephone when I am at home so I can enjoy dinner, help my daughter with her home work, and relax after a 10 hour work day.

Please remember the voice of the consumer and leave the Wisconsin No call law alone.
